

RE: MB Docket No. 04-233

Please do not force the FM translators off the air. I listen to K-LOVE FM all the time. It is family oriented, inspirational, and above all it reaches out to all ages. The DJ's are great people that are sensitive to the promptings of our Heavenly Father. K-LOVE has a prayer request line for anyone to call in and request prayer for themselves or for a need in their lives. When I am at a loss for words to ask my Heavenly Father, then I use the prayer request line.

K-LOVE has pastors on staff that meet 4 times a day for all the prayer requests that have been received. It's like they have a hot line to Heaven. Prayer works! In addition, K-LOVE has a web site full of information for the public's use. Without K-LOVE our community will suffer a great loss. (Which is what the Devil wants!)

Please do not give in to the LPFM stations! Let's keep those FM Translators in operating condition!
